

## **ARCA MIDWEST TOUR TECH BULLETIN 06052019**

The Following Amendments have been made to the 2019 ARCA Midwest Tour Rulebook:

### **3. ACE TYPE ENGINES**

-Carb Spacer: Spacers can be 1 1/2" max and bores may be tapered. Ford Ace with 2934 intake max 5/8" spacer.

### **6. SOUTHERN SUPER PARTS ENGINE (SSPE)**

-Carb Spacer: Spacers can be 1 1/2" max and bores must be circular and perpendicular to the base.

### **REMINDERS**

**1. ELIGIBLE CARS AND BODIES** "Panning of radiator to front bumper and between frame rails for air intake to radiator allowed, maximum 29 inches, with only four sides which consist of continuous planes. Panning under car (weight trays) will be allowed per USRA rules. Panning may start at foot box and only run to back of driver's area (cockpit) and remain inside frame rails."

**20. REAR SUSPENSION** "Starting June 1, 2019, cars utilizing a spool will receive a 25 lbs weight deduction"
