

ARCA MIDWEST TOUR TECH BULLETIN 07272020

The Following Amendments have been made to the 2020 ARCA Midwest Tour Rulebook:

1. ELIGIBLE CARS AND BODIES

Addition: 'ABC Next Gen' has approved the Five Star Gen 6 Body for the 2021 season. This body can be run with pre-approval at all remaining ARCA Midwest Tour events in 2020. A 25 lbs weight penalty will apply at any and all tracks advertised as one-half mile or larger (WIR, Madison, LaCrosse). With both Milwaukee and Gateway not being contested this season, this will allow teams to update if a body replacement becomes necessary due to damage or other factors.

7. CARBURETORS AND SPACER PLATES

The Holley Aluminum (Part # 0-4412SA) 500 cfm carburetor is **NOT** approved for use in the ARCA Midwest Tour for 2020.

REMINDERS

20. REAR SUSPENSION 2020 those not utilizing a spool will receive a 50 lbs weight penalty, 2021 only a spool will be allowed (as stated in 2019 rules)
