

ARCA MIDWEST TOUR TECH BULLETIN 041522

The Following Amendments have been made to the 2022 ARCA Midwest Tour Rulebook:

1. ELIGIBLE CARS AND BODIES

Addition: No air obstruction/deflection device in grill area or tape of any kind will be allowed anywhere on the outside of the car other than the seams of the hood. The only tape exception will be with official approval after an on track crash that results in the need for tape.

20. REAR SUSPENSION

Addition: Straight style rear ends are prohibited. Only standard Winters type or similar quick change rear ends with spur gears accessed through a rear facing cover will be allowed. Minimum ring gear size will be 8"

Slinger Practice Tire Notice: Teams will only be allowed to purchase one new set of practice tires ahead of the April 24 Miracle on the High Banks ARCA Midwest Tour event at Slinger Super Speedway. The track and tour have been keeping track of who has purchased their one practice set of tires. Once you have bought a set, either from the track or the tour, you are no longer eligible for an additional practice set for this event.

Race Tires (4 total tires) will be available starting Saturday April 23, you can order your sizes in advance by calling Dave Grueneberg at 608-513-2278. Race tires will be impounded until just before qualifying on Sunday April 24.
